

Easy-To-Install Home Security

Expand your offering with the Smart Home Security System.

With the simple installation of the Honeywell Home Smart Home Security System, you don't need to be a security expert to add security solutions to your whole-home portfolio.

Smart Home Security System

More than ever, homeowners are seeking security solutions that keep them connected to their homes. With the Honeywell Home Smart Home Security System, you can expand your portfolio as a whole-home expert without needing to become a security expert. Installation is simple: just plug in the base station, mount the battery-operated cameras, place the door and window sensors, and help the homeowner connect it all through the app. That's it. Monitoring is handled by the homeowner, so your job is complete.

All-In-One Solution

The system includes camera and app with smart home integration, plus a range of accessories to meet specific needs.

Easy Installation

Simply place the camera for a view of the area to be protected, then complete the setup through the app. No complicated wiring needed.

High-Quality Video

Day or night, the camera senses motion and sound. Crisp 1080p HD video clips with full audio are sent to the homeowner via the app. Indoor/Outdoor MotionViewer accessories add more quality video options.

Facial Recognition – Coming Soon

The system recognizes faces and notifies homeowners if a child has arrived home or if there's an unrecognized person in the home.*

Self-Monitoring Solution

Once the system is installed, you're done. The handy Honeywell Home app gives homeowners complete and easy control for monitoring their homes themselves. Accessories like the Indoor Access Sensor alert them when a window or door is opened.

Includes Free Storage

Homeowners will appreciate that the system takes both their security and their privacy seriously. 24 hours of free secure cloud storage is included.

Upsell Opportunities

Options include an Indoor Motion Sensor, Indoor Access Sensor, Indoor MotionViewer, Outdoor MotionViewer, and a Key Fob. The variety of accessories lets you increase sales while meeting more customer needs.
