Glowfly[®] Universal Hot Surface Igniter

Replace Almost Any Igniter With Just One Glowfly

Now, it's easier than ever to replace a hot surface igniter with Glowfly[®] from Honeywell Home. Glowfly is compatible with a wide range of brands and even the oldest furnaces. It's easy to maneuver in tight spaces, making jobs smoother for you. So, streamline replacements and stock up on one universal hot surface igniter: the convenient Glowfly from Honeywell Home.

Installs Made Fast and Flexible

Simplify Your Stock With Universal Compatibility

The Glowfly hot surface igniter is all about simplicity. First, it greatly reduces your inventory needs because it's the only hot surface igniter you need to stock. Then it simplifies the job itself through quick installation even in tight chambers. Use the Glowfly Pro when a larger igniter is needed.

Tougher Technology Helps Reduce Replacements

Silicon nitride is a second-generation material that's far more durable than OEM igniters, making Glowfly less prone to breakage when used in challenging installs. The technology can even be used in the oldest furnaces.

Easier Fit, Faster Job

Glowfly is designed specifically for service replacement jobs, enabling quicker service calls.

Single Units and Convenient 6-Packs

Always be prepared with Glowfly's unique truck-ready 6-pack.

Strong Warranty, Reputable Company

Glowfly is backed by a 3-year warranty from Honeywell Home.

Custom Brackets for Flexibility

Every Glowfly includes 6 custom mounting brackets with 7 configurations, making it easy to replace 110+ igniters from nearly every furnace manufacturer. The Glowfly packaging provides visuals to match the correct bracket to the igniter being replaced.
