

Glowfly™ Universal Hot Surface Igniter

Available in Pro and Original Sizes

Now, it's easier than ever to replace a hot surface igniter with Glowfly and Glowfly Pro from Honeywell Home. Our Glowfly family is compatible with a wide range of brands and even the oldest furnaces. It's easy to maneuver in tight spaces, making jobs smoother for you. So, streamline replacements and stock up on one universal hot surface igniter: the convenient Glowfly from Honeywell Home.

Installs Made Fast and Flexible

Simplify Your Stock with Universal Compatibility

The Glowfly and Glowfly Pro hot surface igniters are all about simplicity. First, they greatly reduce your inventory needs because they are the only hot surface igniters you need to stock. They both simplify the job itself through quick installation even in tight chambers. Use the Glowfly Pro when a larger igniter is needed.

Tougher Technology Helps Reduce Replacements

Silicon nitride is a second-generation material that's far more durable than OEM igniters, making both models of Glowfly less prone to breakage when used in challenging installs. The technology can even be used in the oldest furnaces.

Easier Fit, Faster Job

Glowfly is designed specifically for service replacement jobs, enabling quicker service calls.

Strong Warranty, Reputable Company

Both the Glowfly and Glowfly Pro are backed by a 3-year warranty from Honeywell Home.

Custom Brackets for Flexibility

Every Glowfly model includes 6 custom mounting brackets with 7 configurations, making it easy to replace 110+ igniters from nearly every furnace manufacturer. The Glowfly packaging provides visuals to match the correct bracket to the igniter being replaced.
