

Six-pack
Q3200U2002

Single unit
Q3200U1004

New species, new experience

Match and mount simplicity.

Simply compare your OEM igniter to the images below or on the packaging for quick and easy visual cross-reference.

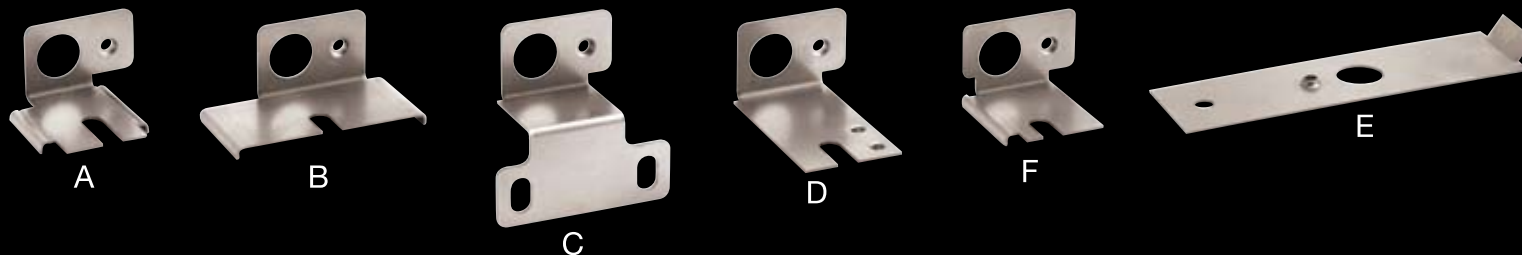

Letters below pictured igniters indicate which bracket may be required for installation. Refer to instruction guide prior to installation.

See product instructions for complete cross-reference and installation details.

Always refer to product instructions prior to installation for complete bracket application guide.

Six brackets. 110+ possibilities.

Every Glowfly comes fully equipped with six custom mounting brackets that are optimized to replace over 110 igniter applications.

IMPORTANT! Visual cross-reference is to be used only as a product selection guide. Always refer to product instructions for bracket selection and installation details prior to installing. Igniter replaces additional models not pictured.

^a Table data is correct to the best of Honeywell's knowledge as of this publication's date. However, some appliances may have igniter applications that are beyond the capabilities of this kit.

^b For igniters that require bracket A, use the template (Fig. 2 on page 3) to determine the tab to be removed.

^c For Carrier sealed combustion furnaces, you must use bracket E and retain the existing orange gasket for use with bracket E.
