The Perfect **Connected** Solution For Every **Customer**.

Capitalize on the growing homeowner demand for connectivity. Add value beyond the initial sale, with products that deliver **comfort and convenience**, and remote diagnostics that enable **better, more proactive service**.

Honeywell connected thermostats work with ecosystem integrators, including Apple HomeKit, Samsung SmartThings, IFTTT and WeatherBug Home. To learn more, **visit forwardthinking.honeywell.com**.

Intelligent comfort control for the connected home.

On Device or App Installation

Access the on-screen menu right at the thermostat or by using the Lyric app to install.

Location-Based Temperature Control

Uses geofence technology and your customer's smartphone location to adjust the settings to save energy when they're away and help make them comfortable upon arrival.

Ecosystem Integration

Works with Apple® HomeKit™ and Samsung® SmartThings™ for control of connected products ranging from lights to garage doors, delivering an even greater connected home experience.

Control on the go with the Lyric app, available for Android or iOS.

LYRIC ROUND IS GREAT FOR:

- Families with busy, unpredictable schedules.
- Tech-savvy customers.
- Customers who don't program and aren't saving as much as they could.
- Environmentally conscious homeowners who want to maximize energy savings.
- Customers who want to integrate Connected Home systems.

Simple connectivity. Control from anywhere.

Connects To Existing Wi-Fi Network

Honeywell Wi-Fi thermostats connect to the home's wireless network – no need for additional gateways or equipment.

Intuitive Operation

Plain-language menus and commands make Honeywell's Wi-Fi thermostats simple to use, minimizing customer callbacks.

Works with the Total Connect Comfort (TCC) app, available for Android or iOS, or with the TCC Web interface.

A WI-FI THERMOSTAT IS GREAT FOR:

- Homeowners who travel and want to make sure their HVAC system is operating as expected.
- Customers who want to adjust the heat or A/C in their vacation home before they arrive.
- Monitoring temperature in a rental property.

Advanced solutions for complex comfort challenges.

Reliable, Secure Connection

Honeywell's RedLINK technology is a proprietary wireless network, facilitating a strong signal and secure, uninterrupted connection.

Bigger Revenue Opportunities

RedLINK helps you offer an integrated solution, which provides greater customer benefits while boosting your bottom line.

Ability To Differentiate

RedLINK solutions enable you to showcase your expertise and give customers value they can't get anywhere else.

Works with the Total Connect Comfort (TCC) app, available for Android or iOS, or with the TCC Web interface.

REDLINK IS GREAT FOR:

- A multi-level home with temperature swings between the top and bottom floors.
- Homeowners with seasonal allergies and homes with pets, because RedLINK can link to and control indoor air quality products, such as wholehouse air cleaners.
- Homes with inconsistent humidity levels.
