## Packed With Features You Need

Designed for indoor use, the Lyric C1 delivers an ultra-wide angle, high-definition view, and two detection zones can be set for extra sensitivity or to ignore background motion like a ceiling fan. Intelligent sound detection supports the video by adding audio analytics that identify smoke and carbon monoxide alarms. Real-time mobile alerts can be sent right to your phone, or to another family member, friend, or neighbor.

Video capture can be triggered by motion or sound, with video clips stored on an included SD card and in the cloud. Plus, secure cloud storage of the past 24 hours is free.
