

AMX300 Thermostatic Mixing Valve

Lead Free

Honeywell

Updated energy efficiency standards for water heaters can make your job harder. The Honeywell AMX300 mixing valve makes it easier. The AMX300 mixing valve is packaged with a cold water tee and flexible connector in one kit, so you have everything you need. This innovative design fits perfectly on a water heater and installs easily. It means increased profit for you, and happy customers who enjoy more usable hot water and protection from scalding. **15 minutes is all it takes. No intense labor, no pile of extra parts, no extra set of hands.**

AMX300 Thermostatic Mixing Valve

Everything you need for effortless installation and increased profits.

With the AMX300 valves, you can raise the stored water temperature to 140°F or higher, while still addressing concerns about water being too hot at the tap. This can eliminate the need for a larger and more expensive tank that requires heat pump or condensing technology.

1 Teflon® Coating – Reduces hard water scale build-up to increase product life and reduce callbacks

2 Advanced Hot Water Applications – Integrated auxiliary hot water port allows for optional use of unmixed hot water for dishwasher or laundry applications

3 Easy Recirculation – Integrated port allows for optional connection to a domestic hot water recirculation loop

4 Locking Clip – Locks the handle to prevent tampering.

5 Simple Adjustment – Push & Lock Handwheel makes temperature adjustment simple and reliable

6 Advanced Cold Water Applications – Integrated auxiliary cold water port allows for optional use of cold water without additional tees for applications such as ice makers

Part Number	Description	Connection to tank	Connection to system	Max/Min Flow
AMX300TLF	AMX300 lead-free kit with mixing valve, cold water tee and 8" flex connector	3/4" FNPT	3/4" MNPT	19/0.25 GPM
AMX302TLF	AMX300 lead-free kit with mixing valve, cold water tee and 11" flex connector			
AMX300LF	Replacement lead-free AMX300 3/4" mixing valve			

Meets Lead-free codes – All of our AMX300 mixing valves are now available in Low-Lead-Content version

Free ThermoStrip® Included

Makes temperature setting easy for one person to handle.
